1. **Retrograde percutaneous recanalization of chronic total occlusion of the coronary arteries: procedural outcomes and predictors of success in contemporary practice**
   Rathore, S., et al.

2. **Occurrence of coronary collateral vessels in patients with sleep apnea and total coronary occlusion**
   Steiner, S., et al.

3. **Five-year clinical outcomes after coronary stenting of chronic total occlusion using sirolimus-eluting stents: insights from the rapamycin-eluting stent evaluated at Rotterdam Cardiology Hospital-(Research) Registry**

4. **A comparison of the transradial and the transfemoral approach in chronic total occlusion percutaneous coronary intervention**
   Rathore, S., et al.

5. **Retrograde recanalization of chronic total coronary artery occlusion using a novel "reverse wire trapping" technique**
   Ge, J. and F. Zhang

6. **Intravascular ultrasound-guided retrograde wiring for chronic total occlusion**
   Furuichi, S. and T. Satoh
7. Impact of stress testing before percutaneous coronary intervention or medical management on outcomes of patients with persistent total occlusion after myocardial infarction: analysis from the occluded artery trial
Cantor, W.J., et al.

8. The first clinical experience with a novel catheter for collateral channel tracking in retrograde approach for chronic coronary total occlusions
Tsuchikane, E., et al.

9. High-frequency ultrasound-guided late surgical revascularisation of chronically occluded left anterior descending coronary artery
Inoue, Y., et al.
