

# ISAR-CHOICE 2

## Randomized Trial of 75 mg vs 150 mg of Daily Clopidogrel in Patients Undergoing PCI

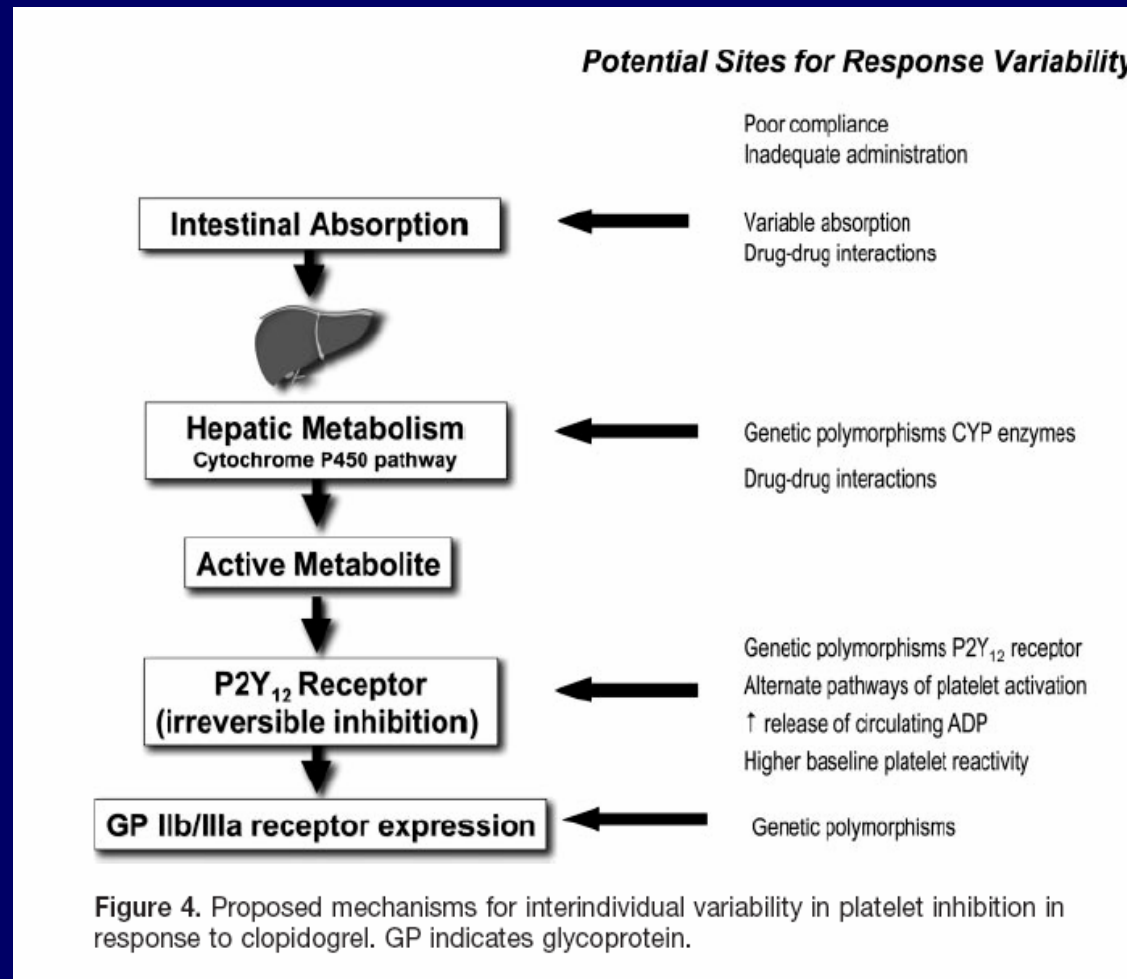

Adnan Kastrati

Deutsches Herzzentrum,  
Munich, GERMANY

# Variability in Platelet Response to Clopidogrel

# Variability Sources

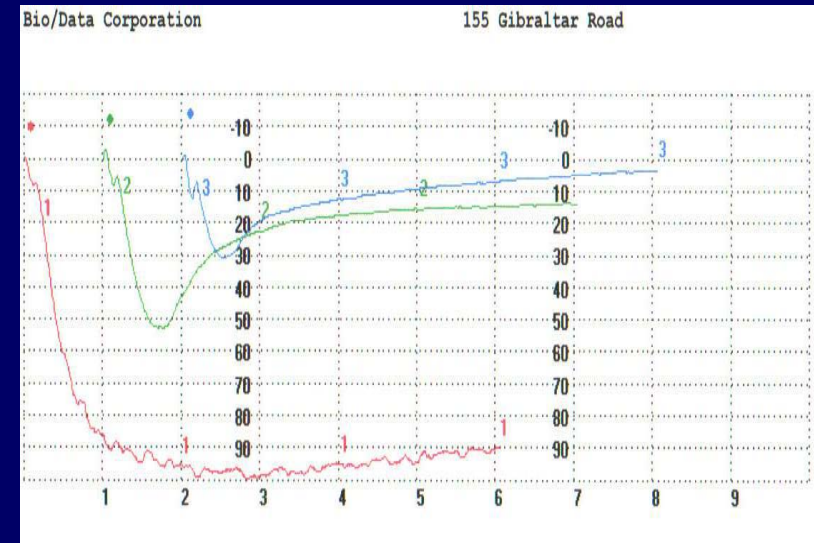

How can we measure platelet response to clopidogrel in clinical practice?

Platelet Aggregation Profiler® PAP 8  
(Bio/Data Corporation, USA)

Standard method, but complex, time-consuming and impractical for routine use

# Whole-Blood Aggregometry

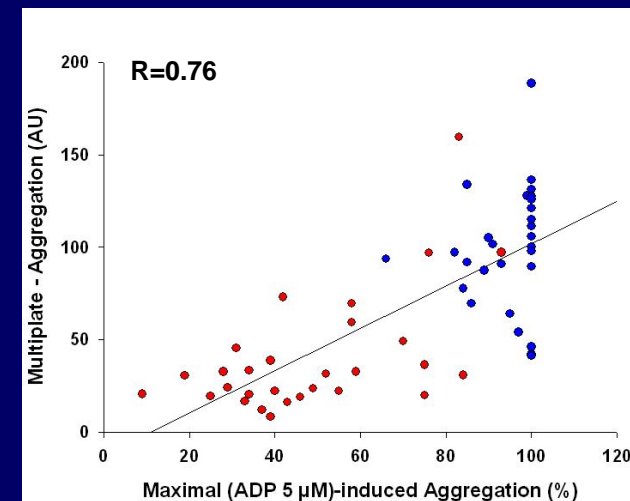

Multiple Platelet Function Analyzer®  
(Dynabyte GmbH)

No. of pts

Post-600mg Clopidogrel ADP test (AUC)

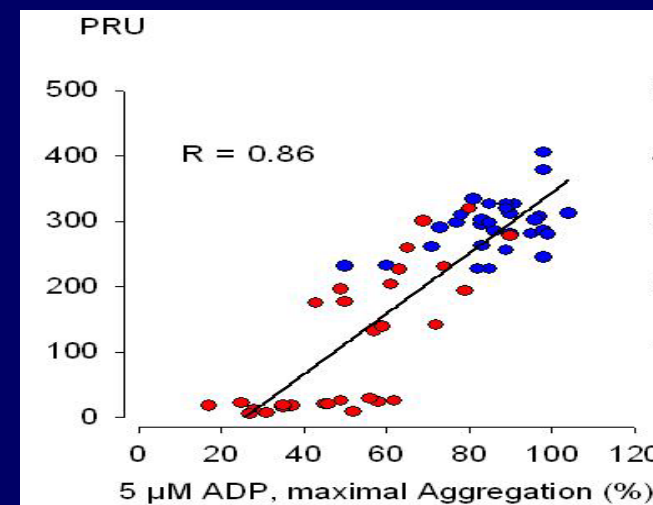

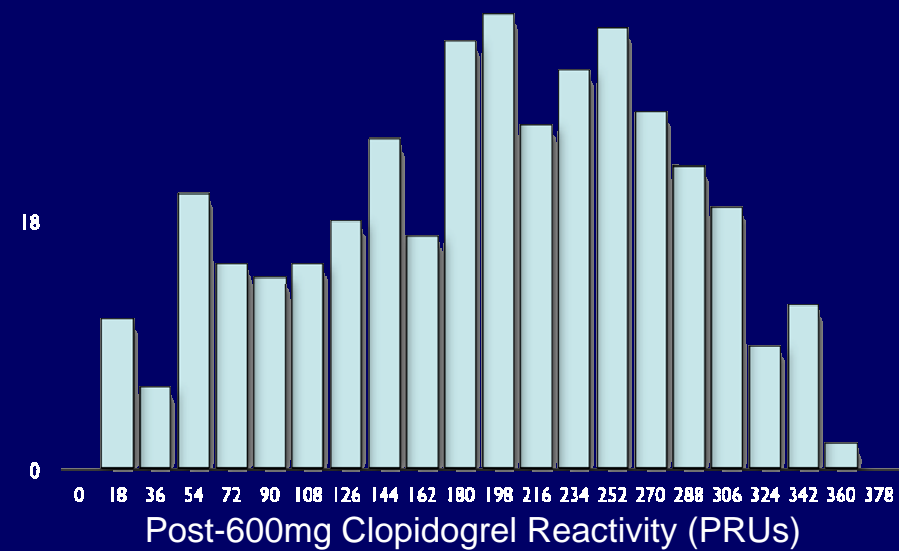

# Point of Care Assay

VerifyNow® P2Y12 Assay  
(Accumetrics, USA)

No. of pts  
36

# Clinical Relevance of Nonresponse to Clopidogrel

## Case illustrations

# Patient with Stent Thrombosis 72h After Procedure

# Results of LT Aggregometry 20h After 600 mg of Clopidogrel

ADP 5 $\mu$ M

ADP 20 $\mu$ M

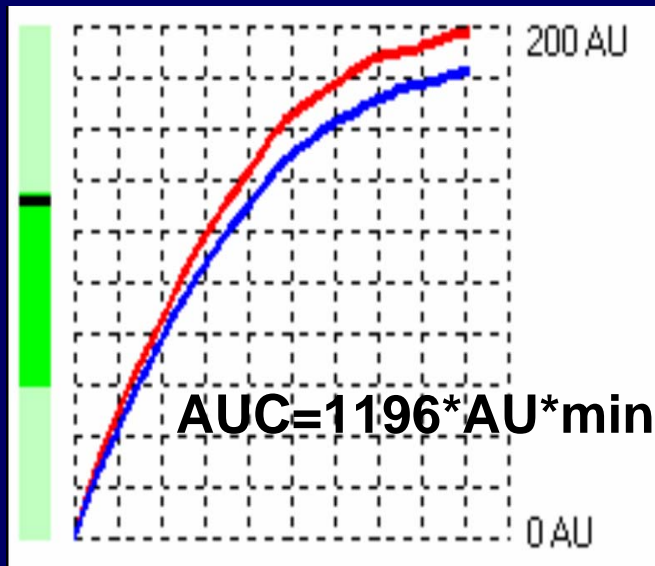

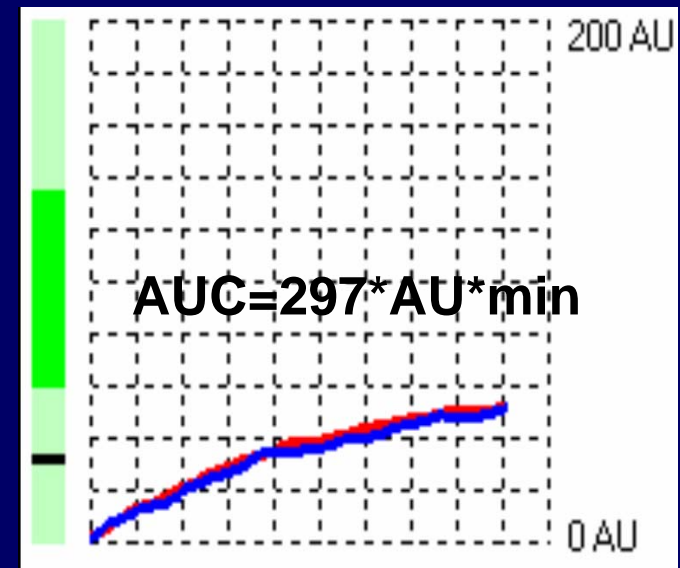

# Results of Whole Blood Aggregometry 20h After 600 mg of Clopidogrel

ST patient

Control

# A Patient with Stent Thrombosis and Clopidogrel Resistance

Stent Thrombosis Patient

Control Individual

# A Patient with Stent Thrombosis and Failed Clopidogrel Metabolism

Clopidogrel

Active Metabolite

# Clinical Relevance of Nonresponse to Clopidogrel

## Study Evidence

## EXCELSIOR Study

802 pts

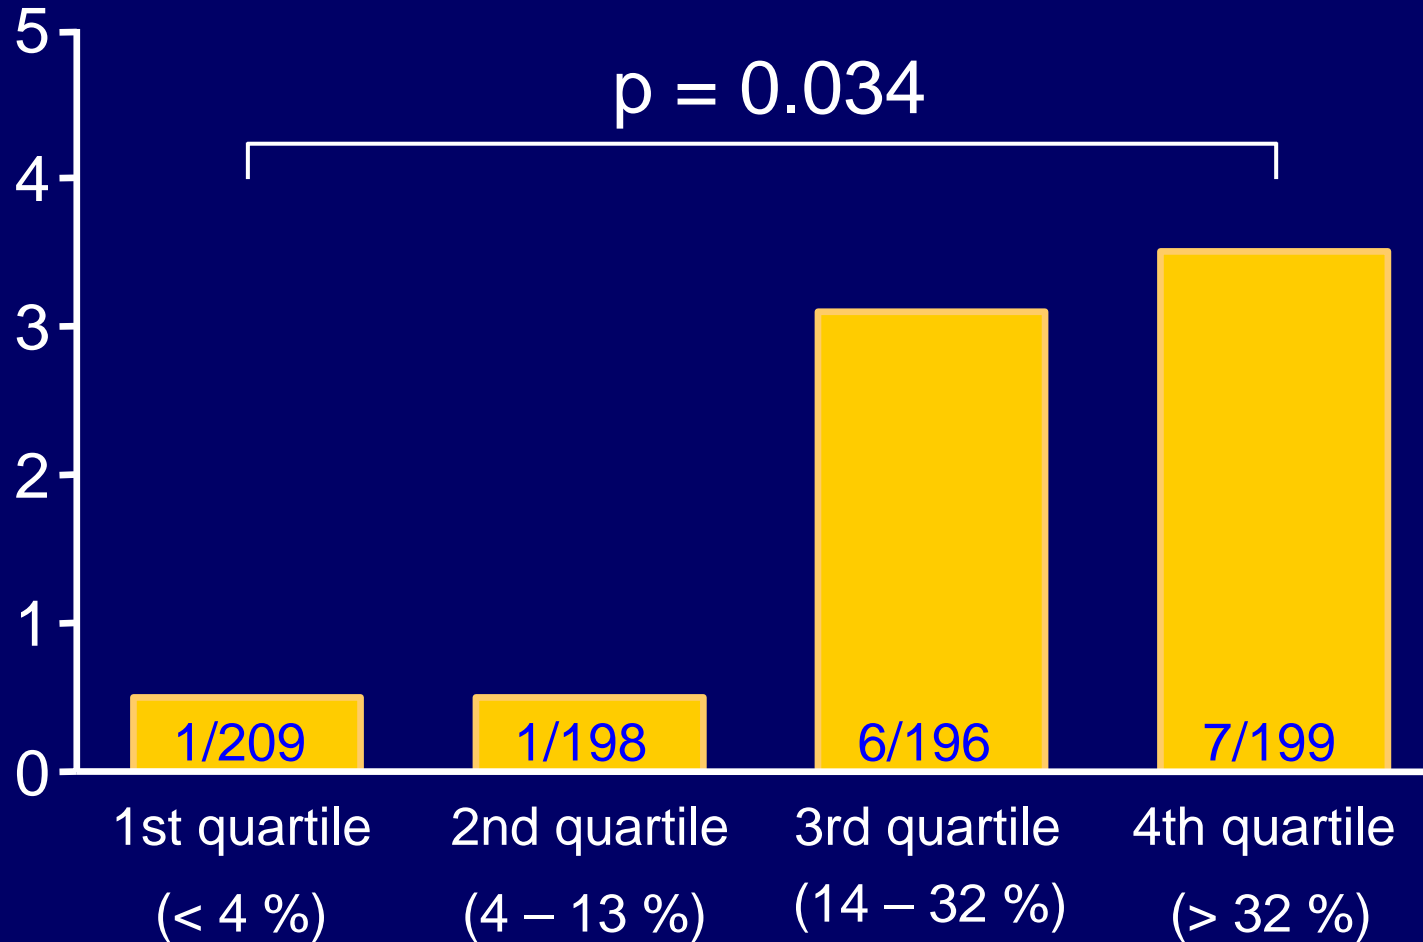

600mg of clopidogrel  
Light transmission aggregometry (5 $\mu$ M ADP)  
prior to PCI

# Platelet Aggregation During PCI and Outcome

30-day MACE (%)

ADP-induced (5 μM) platelet aggregation

## RECLOSE Trial 804 DES pts

600mg of clopidogrel

Light transmission aggregometry  
(ADP 10 $\mu$ mol)

Non-respondent pts – upper 10% of aggregation

LBCCT of Dr. Antoniucci at ACC '07

# RECLOSE Trial Primary End Point

Six- month FU	Overall n=804	Resp. n=699	Non- Resp. n=105	p value
❖ Definite/probable stent thrombosis	25 (3.1)	16 (2.3)	9 (8.6)	< 0.001
➤ Definite	11 (1.4)	9 (1.3)	2 (1.9)	0.612
➤ Probable	14 (1.7)	7 (1.0)	7 (6.7)	< 0.001
<b>Time of stent thrombosis</b>				
➤ Early	0	0	0	
➤ Subacute	16 (2.0)	12 (1.7)	4 (3.8)	0.152
➤ Late	9 (1.1)	4 (0.6)	5 (4.8)	< 0.001

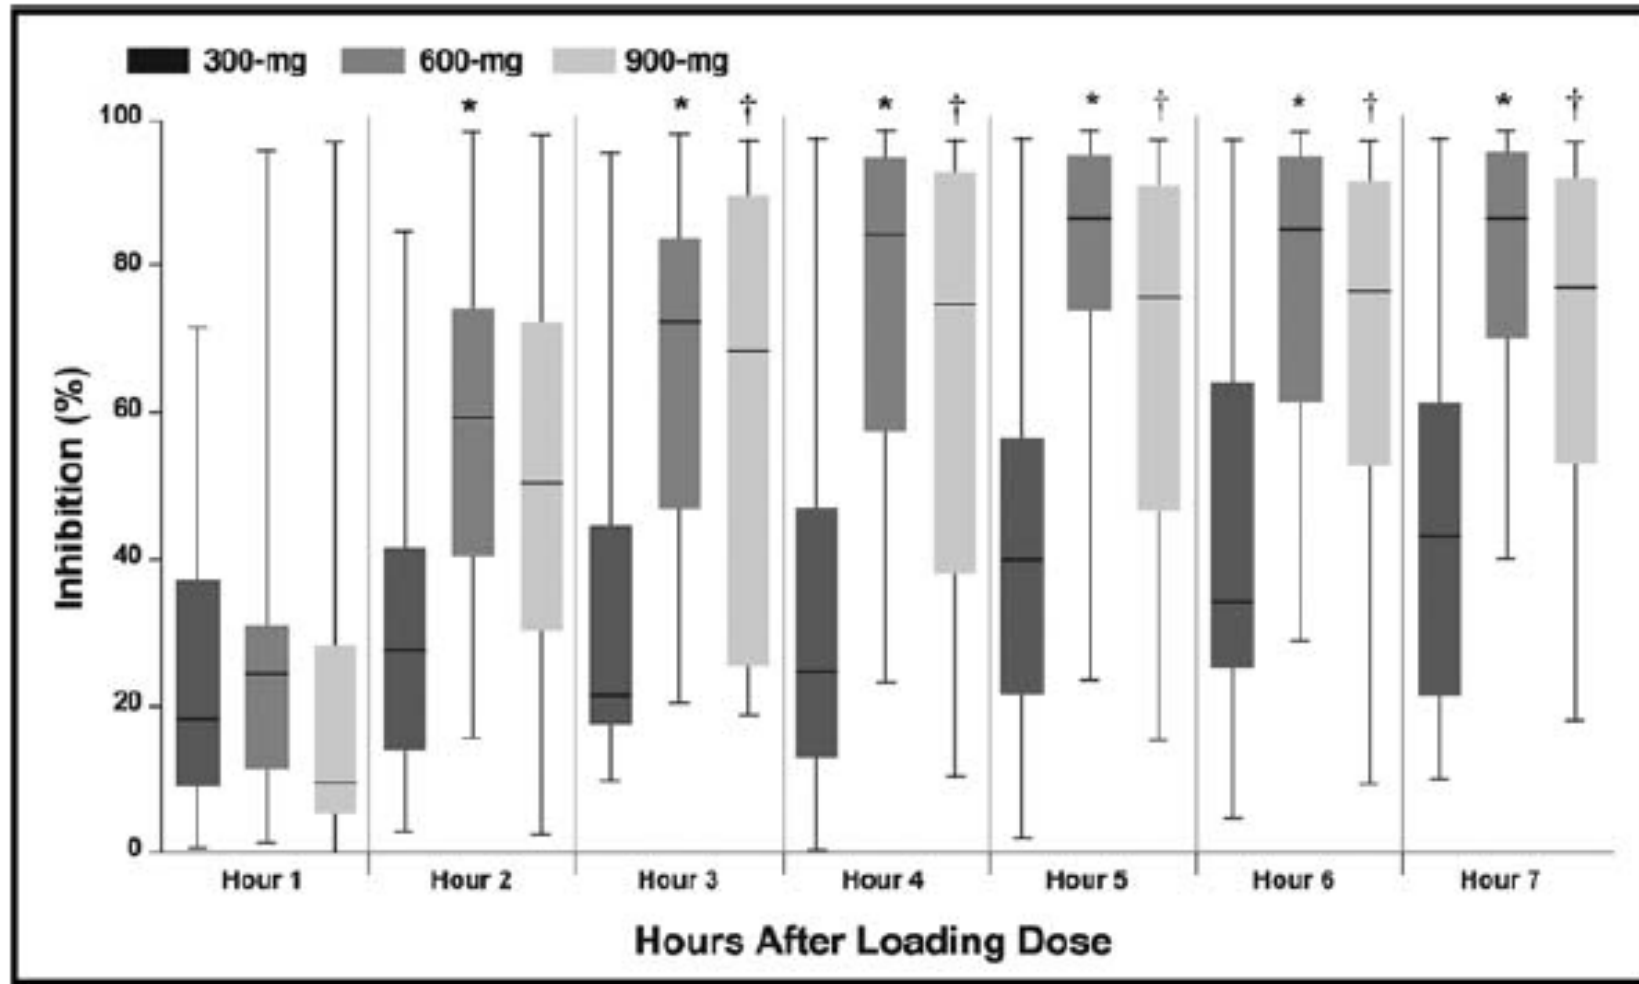

## Evidence on Increased Loading Dose

# Platelet Inhibition After 300, 600 and 900 mg of Clopidogrel

n=45, point of care test (Accumetrics)

TUM

# Platelet Inhibition After

# 300, 600 and 900 mg of Clopidogrel

n=103, optical aggregometry

TUM

# Platelet Inhibition After

# 300, 600 and 900 mg of Clopidogrel

n=60, optical aggregometry

## Active metabolite

## Clopidogrel

## Evidence on Increased Maintenance Dose

# Are Clopidogrel Maintenance Doses >75 mg More Effective?

600 mg Loading in Pts  
on 75 mg Chronic Therapy

# ISAR-CHOICE 2

## - A Double Blind Study-

Daily 150 or 75 mg clopidogrel

assessment of platelet function  
(optical aggregometry, 5 & 20  $\mu\text{mol/L}$  ADP  
Point of care test: Verify Now)

# Baseline Characteristics

	150 mg n=31	75 mg n=29	P
Age, y	63.0±7.5	65.4±6.9	0.20
Women	3 (9.7)	2 (6.9)	0.70
Weight, kg	89.2±17.4	82.8±9.8	0.09
Height, cm	176.2±6.8	174.8±6.5	0.41
Platelet count, 10 <sup>9</sup> /L	217±65	223±44	0.70
Arterial hypertension	14 (45.2)	15 (51.7)	0.61
Hypercholesterolemia	16 (51.6)	142 (48.3)	0.80
Active smoker	3 (9.7)	2 (6.9)	0.70
Diabetes	7 (22.6)	10 (34.5)	0.31

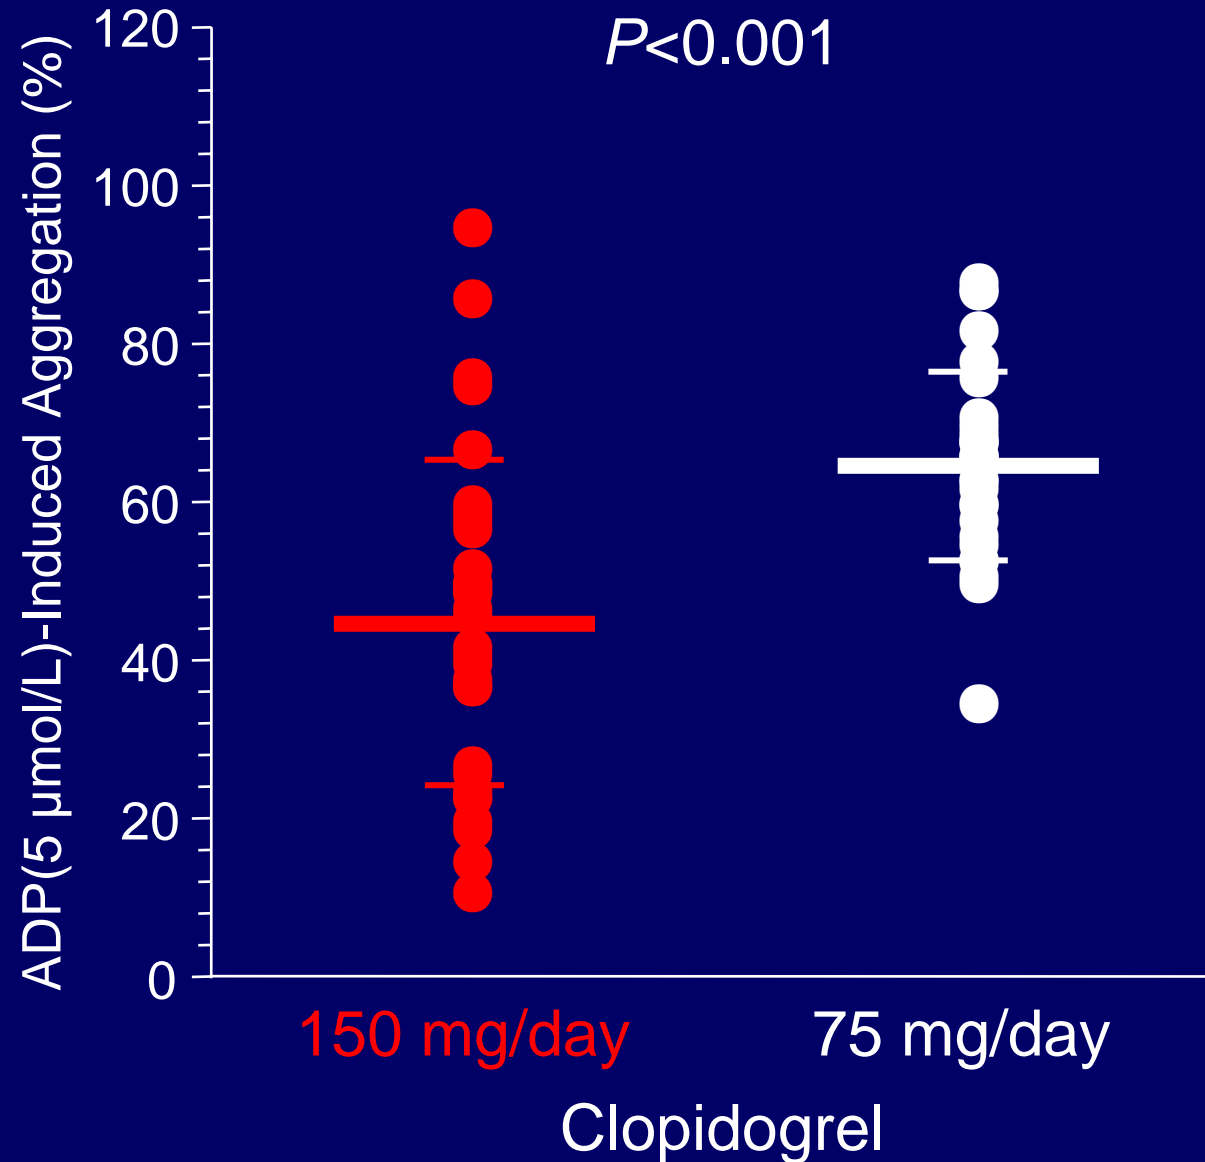

# Baseline Medications

	150 mg n=31	75 mg n=29	P
Aspirin	31 (100)	29 (100)	1.00
Beta-blockers	28 (90.3)	28 (96.6)	0.33
ACE-inhibitors	27 (87.1)	26 (89.7)	0.76
Statins	31 (100)	28 (96.6)	0.48

# Aggregometry (30 days)

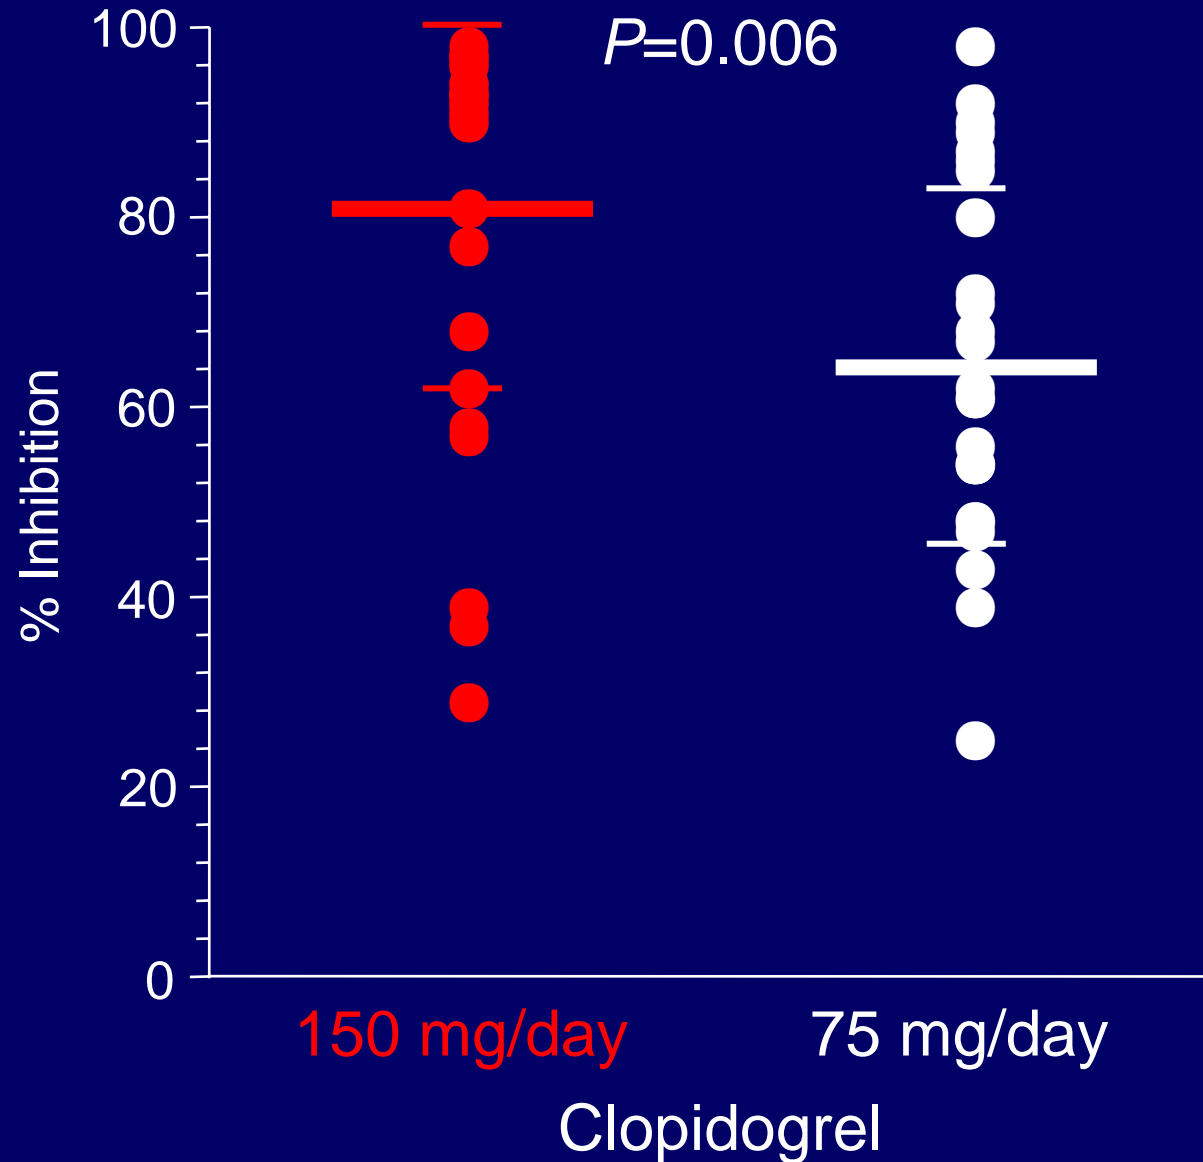

# Aggregometry (30 days)

# VerifyNow™ P2Y12 Assay (30 days)

# VerifyNow™ P2Y12 Assay (30 days)

# Conclusions, I

- A low platelet response to clopidogrel is observed in a relevant proportion of patients.
- Increase in the loading dose of clopidogrel up to 600 mg is able to improve significantly platelet response to clopidogrel.

# Conclusions, II

- Doubling maintenance dose to 150 mg leads to stronger platelet inhibition.
- This maintenance dose may turn out to be useful in high risk patients or patients with limited response to clopidogrel.
- The clinical efficacy and safety of this increased dose regimen need to be evaluated in specifically designed RCTs.
