

# **If we meet a complication, What we should think ??**

**President / Director of Cardiology / New Tokyo Hospital**

**Professor of Department of Advanced Cardiovascular Medicine:  
Kumamoto University**

**Consultant / National Cardiovascular Center / Osaka**

**Sunao Nakamura**

**FACC, FAHA, FESC, FSCAI**

# **Complications....**

- (1) Coronary dissection...**
- (2) Coronary perforation...**
- (3) Cardiac tamponade...**
- (4) No flow, Slow flow phenomenon**
- (5) Bleeding complication...**

**You need to use....  
Drug, Graft stent, IABP, PCPS,  
Peri-cardiocentesis, Send Surgery...**

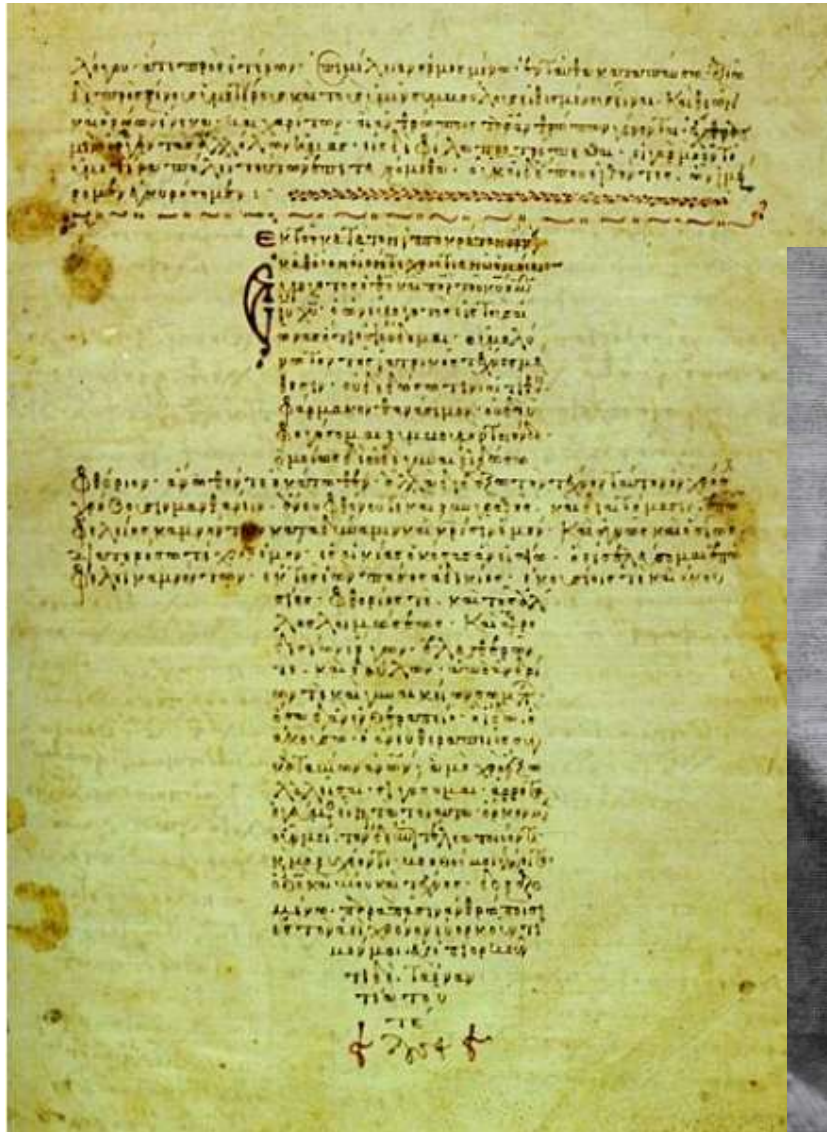

# **If you meet a complication....**

**You need to get a flash idea of.....  
Those 3 things with this order in a second**

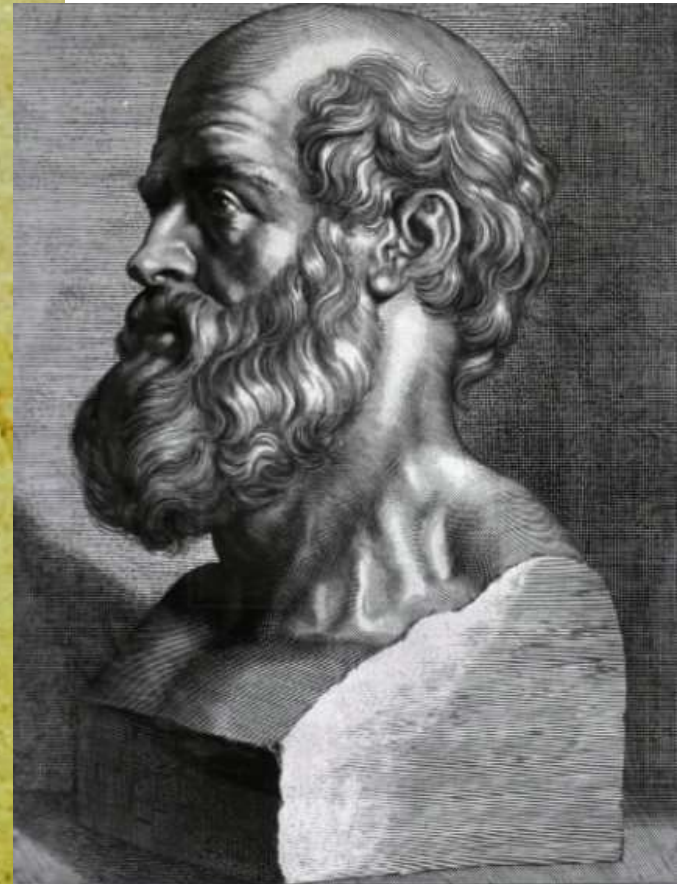

- (1) How much time still you have until patient collapse
- (2) What is a reason of the complication ?
- (3) What you should do next ??

**Only you can save the patient's LIFE !!!**

# The Hippocratic Oath

Hippocrates  
(BC460~370)

# The Hippocratic Oath

1. Following my own ability and judgement,  
Select the treatment which benefits to patients  
and never opt those give harm to them
2. Provide medical care by pursuing purity and  
sacrosanctity throughout your life.
3. Regardless who they are, whether they are people  
with freedom or slaves without freedom,  
medical care should be provided without any dishonest.
4. Whether it is relevant to medicine or,  
life of others should be kept in secrecy.

**Namely being as a medical doctor,  
the followings should be deeply kept in mind:**

## **We should keep in mind !!**

1. Best option for patient should be selected.  
Never affect on patients' benefit.
2. Keep sincerity to Medicine.
3. No discrimination, nor differentiation.  
Everyone has his/her right.
4. Privacy of a patient should not be disclosed  
by no means.

**Do Not Harm the Patients !!!!**

We need to strive perseveringly  
to get better with each single day.

**“Be a doctor” ;  
This is a most important thing,  
but very very difficult.**
